About Immigration Advocates Network

The Immigration Advocates Network (IAN), a program of Pro Bono Net, is dedicated to expanding access to immigration legal resources and information through collaboration and technology. IAN was created in 2007 by leading immigrants' rights organizations, to increase access to justice for low-income immigrants and strengthen the capacity of organizations serving them. We create our own tools, build platforms for others, and work with partners to harness the power of technology and collaboration to better support immigrants and their advocates.
